

Joan Lluís FUMADÓ ALSINA, PhD / Architect

e-mail: juan.luis.fumado@upc.edu

Current position:

Professor Emeritus of the Universitat Politècnica de Catalunya (UPC)
Prof. Dr. at the School of Professional & Executive Development, Polytechnic University of Catalonia, BARCELONA TECH (UPC). Master Degree Co-Director

Education:

M. Architect, ETSAB, Barcelona

Physical Sciences studies

Economic Sciences studies

1976: Doctorate in Architecture at the UPC

1985: Titled as Property Manager by the Ministry of Public Works and Urban Planning

Academic and Professional Experience:

Since 1978 he is Professor at the UPC, teaching on Building Facilities and Environmental Conditioning, and is co-director of:

- The International Master: *Architecture and Sustainability*
- The post graduate program: *Architecture and Energy Saving*
- The post graduate program: *Building Energy Qualification and Certification systems.*

Expert of the High Court of Justice of Catalonia and Arbitrator of the Technical Arbitral Tribunal of Catalonia

In the professional field he has designed and directed individually and in collaboration with other architects, building, urban planning and facility projects.

As an expert on issues of Facilities and Environmental Conditioning he has participated in several research projects and published scientific work.

This double professional and academic activity can be summarized indicating that he has participated in 15 projects selected for the FAD Architecture Awards, with a total of approximately 200.000 m² for new buildings; 300.000 m² for new facilities; 100.000 m² for structural and constructive rehabilitation projects and 600.000 m² for rehabilitation of facilities.

He has given more than 200 lectures and postgraduate courses, written more than 40 articles and published a total of 11 monographs and 7 books, (on issues of Environmental Conditioning and Service Facilities).

In 2010 he won the Medal of the Architects Association of Catalonia in recognition of his task in promoting the exercise of the architecture within the scope of design and facilities calculation.

He is the author of these books:
